Product Code: MW0834

PRESSFORM 834 is a premium quality, water-soluble metal forming fluid.

APPLICATION

PRESSFORM 834 forms a stable translucent brown emulsion. Formulated primarily for use on Hatebur machines for cold forging intricate components in difficult bronze and gun metals.

NB: Add the concentrate as received to water and agitate to ensure thorough mixture.

BENEFITS

- Odourless formulation for operator acceptability
- Excellent lubricity
- Nitrite free and Phenol free
- Can be used on ferrous and non-ferrous metals
- Biocide pack ensures protection from bacteria
- Formulated for use at between 10% and 30%

TYPICAL PROPERTIES

Appearance:	Clear brown liquid
Odour:	Mild
Specific Gravity:	0.950
Viscosity @ 40°C:	155 cSt
Flashpoint:	> 150°C

HEALTH AND SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Safety Data Sheet is available on request.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
